SUMMARY

UI/UX Designer and Frontend Team Lead with 2+ years shipping production interfaces. Runs the work end to end: user research, wireframes and prototypes in Figma, then the React front end that implements them.

PROFESSIONAL EXPERIENCE

Software Developer

March 2026 to Present

BangoPure Limited, Remote, United Kingdom

- Lead the frontend team after promotion to Frontend Team Lead, mentoring 10 developers and owning delivery of the frontend codebase.
- Build scalable digital platforms for GreenTech and EdTech clients across Europe and Africa, supporting sustainable innovation and digital learning.
- Run structured code reviews and sprint planning across the team, keeping collaborative project delivery on schedule.

Full Stack Developer

September 2025 to March 2026

Scholars Avenue (Scholarslee), Remote, Germany

- Architected scalable REST APIs with Node.js, Express, and MongoDB ensuring reliability under concurrent user loads.
- Owned end to end design and development: conducted user research, built wireframes and prototypes in Figma, then implemented them in React.
- Led full stack development of Scholarslee, a study abroad mentorship platform connecting students with mentors worldwide.
- Implemented Stripe payment processing, real time chat via Socket.io, and calendar scheduling to streamline the booking experience.
- Built mentor review and rating system with quality controls, maintaining high platform trust and user satisfaction.

Full Stack Developer

August 2024 to August 2025

RubrixCode, Hybrid, Islamabad

- Optimized frontend performance achieving fast page load times across all devices and screen sizes.
- Designed and implemented responsive UI components, RESTful APIs, and database schemas, delivering full client satisfaction.
- Built Sweden Relocators Portal for a Swedish client, a relocation platform covering housing, visa, job search and settlement services.

PROJECTS

Sweden Relocators Portal | *React, Node.js, Express, MongoDB, Material UI*

- Optimized frontend performance for fast load times across all devices and screen sizes.
- Built a responsive relocation platform for a Swedish client covering end to end relocation and embassy related services.
- Improved UX through repeated usability testing iterations with the client.

CasaBelle | *React, Node.js, Blockchain, AI*

- Developed responsive frontend interfaces and UI/UX workflows for a blockchain powered real estate and fractional property investment platform.
- Integrated secure authentication, automated email services, and AI sentiment analysis for property review verification.
- Contributed to property tokenization, fractional ownership management, and smart contract based rent distribution.

OtakuLink, Anime Streaming Platform | *Figma*

- Won 1st place in the Soventure'25 competitive UI/UX design competition.
- Designed the full streaming UX from scratch: user flows, wireframes, a component library, and a high fidelity prototype.
- Focused the experience on content discovery and clear visual hierarchy.

Teen So Tera, Islamic Web Application | *Figma*

- Won 1st place at DeenFest'24 for usability and aesthetic quality.
- Designed an accessible, user centered interface for daily worship needs.

- Integrated prayer times, a Qibla compass, Tasbeeh counter, daily Adhkars and an Islamic calendar into one coherent experience.
